ONCE UPON A PLATE

CATERING & EVENTS

Once Upon a Plate I experienced a tale.

I experienced a legacy of life itself, told by colorful characters, gathered around food created with care and intention. At that moment I realized the power of each meal and the story that every dish holds.

Food is the story of life. Food is the story of love.
Food is the story of health.

This tale unraveled into my own narrative and memories which inspired me to pursue my dream and open Once Upon a Plate. Stories told over delicious food around a dinner table are both priceless and endless. These stories withstand the test of time and transcend generations. At Once Upon a Plate we hope that the food created here with a passion for loving and living will bring your own family and friends together to create, share, and pass on your own unique stories. The power of a shared meal is so great. Can you taste the way the flavor intertwines with memory and emotion? Can you taste your own story?

Let us be part of your next fairy tale.

Happily Ever After,

Victoria
